The Event Space in Animal Adventure, ZSL London Zoo, NW1 4RY

Please see [www.zsl.org](http://www.zsl.org) for admission prices

***London Zoo will provide a limited number of free entry passes on a first come first served basis. Please contact Hatty Morris - [hattymorris@gmail.com](mailto:hattymorris@gmail.com)***

In October 2009 Hatty Morris ran a competition with Cool it Schools for The Big Draw at London Zoo. That week the children who took part made nearly 300 drawings of animals, all fantastically adapted to their vision of dramatic climate change.

London Zoo is now showing Hatty's 'extreme animals', these large scale drawings in charcoal, inspired by the children's work, take us on a journey into the future.

**'A pig that morphs from a donkey, a penguin with talons – wild drawings, strange beasts.** Yet within these imaginary creatures, drawn by Hatty Morris and inspired by children's imaginations, are the products and tools of new ways of adapting and evolving to change. Today, the change is often climate-driven, and animals need to adapt more than ever before.'

Malcolm Whitehead, Head of Discovery and Learning at London Zoo

Hatty Morris was born in London in 1984. She graduated from Cambridge University in 2007 where she read History of Art before completing a second BA in Fine Art at City and Guilds of London Art School in 2009.

Hatty draws animals in charcoal from a variety of sources including experience gained from life drawing, 16<sup>th</sup> century wildlife studies and children's drawings. These drawings present the viewer with an new and visionary Animalia for our planet.

She also organises projects at schools and museums with Cool it Schools. Hatty has a studio in Brixton.

Get Creative and Cool it! Calling all schools to join our global project for young people who want to do something positive about climate change. By working as a team we can help stop polar ice caps melting, prevent rainforests being destroyed, plants vanishing, animals becoming extinct and much more besides. This is your chance to show families, friends, governments and religious leaders just what you feel about climate change through the biggest display of ideas and imagination by young people ever seen on earth.
