DEVELOPMENT OFFICE

The start of the Michaelmas term 2007 saw the successful launch of The Sennockian Club. We have now formalised the alumni association to increase the number of alumni events and other membership benefits. These will grow as the association develops, and as the Friends of Sevenoaks School associations across the world offer help with networking opportunities, job searches, student work placements, and help with visits. Facilities such as The Sennocke Centre will be available to former students.

The growth of Friends of Sevenoaks School associations around the world has been exciting. Eight currently exist, in Brussels, Hong Kong, Kuala Lumpur, New York, Mumbai, Munich, San Francisco and Singapore; it is hoped during 2008-9 groups will form in The Hague, Kenya and Moscow.

During the year there have been several important reunion events. A tenth reunion dinner was held at the school in May, a fiftieth reunion lunch for the class of 1957, as well as a twenty-fifth reunion black tie dinner for the class of 1982 in September. The Festival of Sport at the start of term was a great success, as was an eightieth Johnsons reunion in October. There was also an informal reunion in London in June. Overseas, two very successful events took place: a summer reception for parents and alumni at the offices of Freshfields Bruckhaus Derringer in Brussels, generously sponsored by current parents, and in October a reunion dinner was held at the Presidio Golf Club Clubhouse in San Francisco for parents and alumni living in the area. This event was very generously sponsored by a former student and his wife.

Following the construction of The Sennocke Centre, plans for the next phase of the school's development, a new Performing Arts Centre, have progressed. During the summer, work on drainage and cabling beneath the Flat was carried out, and in September we received planning consent from the Sevenoaks District Council. This is an important milestone and means that the project is on track for completion in November 2009.

A series of presentations about the next phase of the development plan are underway and fundraising for the Performing Arts Centre has started. Parts of the Performing Arts Centre are available to donors who would like to have their name on a room or part of the centre in return for a substantial donation. Already several of the individual practice rooms have been allocated to donors.

Warmest thanks to all those who during the last year have generously supported the Acorn Fund, either through regular giving set up by Standing Order or by a single gift. An increasing number of people have agreed to remember Sevenoaks School Foundation in their will, and following the death of Ian Arrol (Johnsons 1928-34) the Foundation will receive a legacy of about £100,000. The school is immensely grateful.

Last year we mentioned the efforts to trace lost members of the alumni. Our records are still not as good as we wish, so please let Hope Pym know your contact details, whether they are your own home or work details or those of your parents.

*John Walton
Development Director*

THE NEXT PHASE OF THE DEVELOPMENT PLAN

The current project, for which the plans are well advanced and planning consent given, is a new Performing Arts Centre, to be built on the site of the old changing rooms and the squash courts located between the Marley Hall and Sackville Theatre. The centre will provide 2733 square metres of useable space and the topography of the area allows us to construct a building with three floors.

Entering from the level of the Flat the visitor will pass through the foyer into the recital room which looks onto the deer park. To the left will be the auditorium with raked seating for an audience of 500 people. Primarily serving as the concert hall, this space will provide an outstanding concert stage for our 70-piece orchestra, as well as space for the full student choir.

To the right of the foyer area will be a new drama studio, and beyond, a link into a totally refurbished Sackville Theatre. Audiences will enjoy the extensive foyer and bar space, and on the east side of the building, an attractive external terrace with views into Knole.

The building will also contain 16 individual sound-proofed practice rooms, a drums and recording studio, a world music room, and offices for heads of departments and teachers.

Some enabling work was completed during the summer of 2007 and work on the plans has continued and taken them to RIBA Stage E. The appointment of contractors will take place in the spring of 2008. Demolition of buildings and work on site will take place immediately the exams are over, in July 2008. Completion of this project is scheduled for November 2009.

The new building will open onto a pedestrianised area – the Flat will no longer be a car park, but an attractive courtyard space for all to enjoy.

For more information please contact the Development Director at Sevenoaks School.

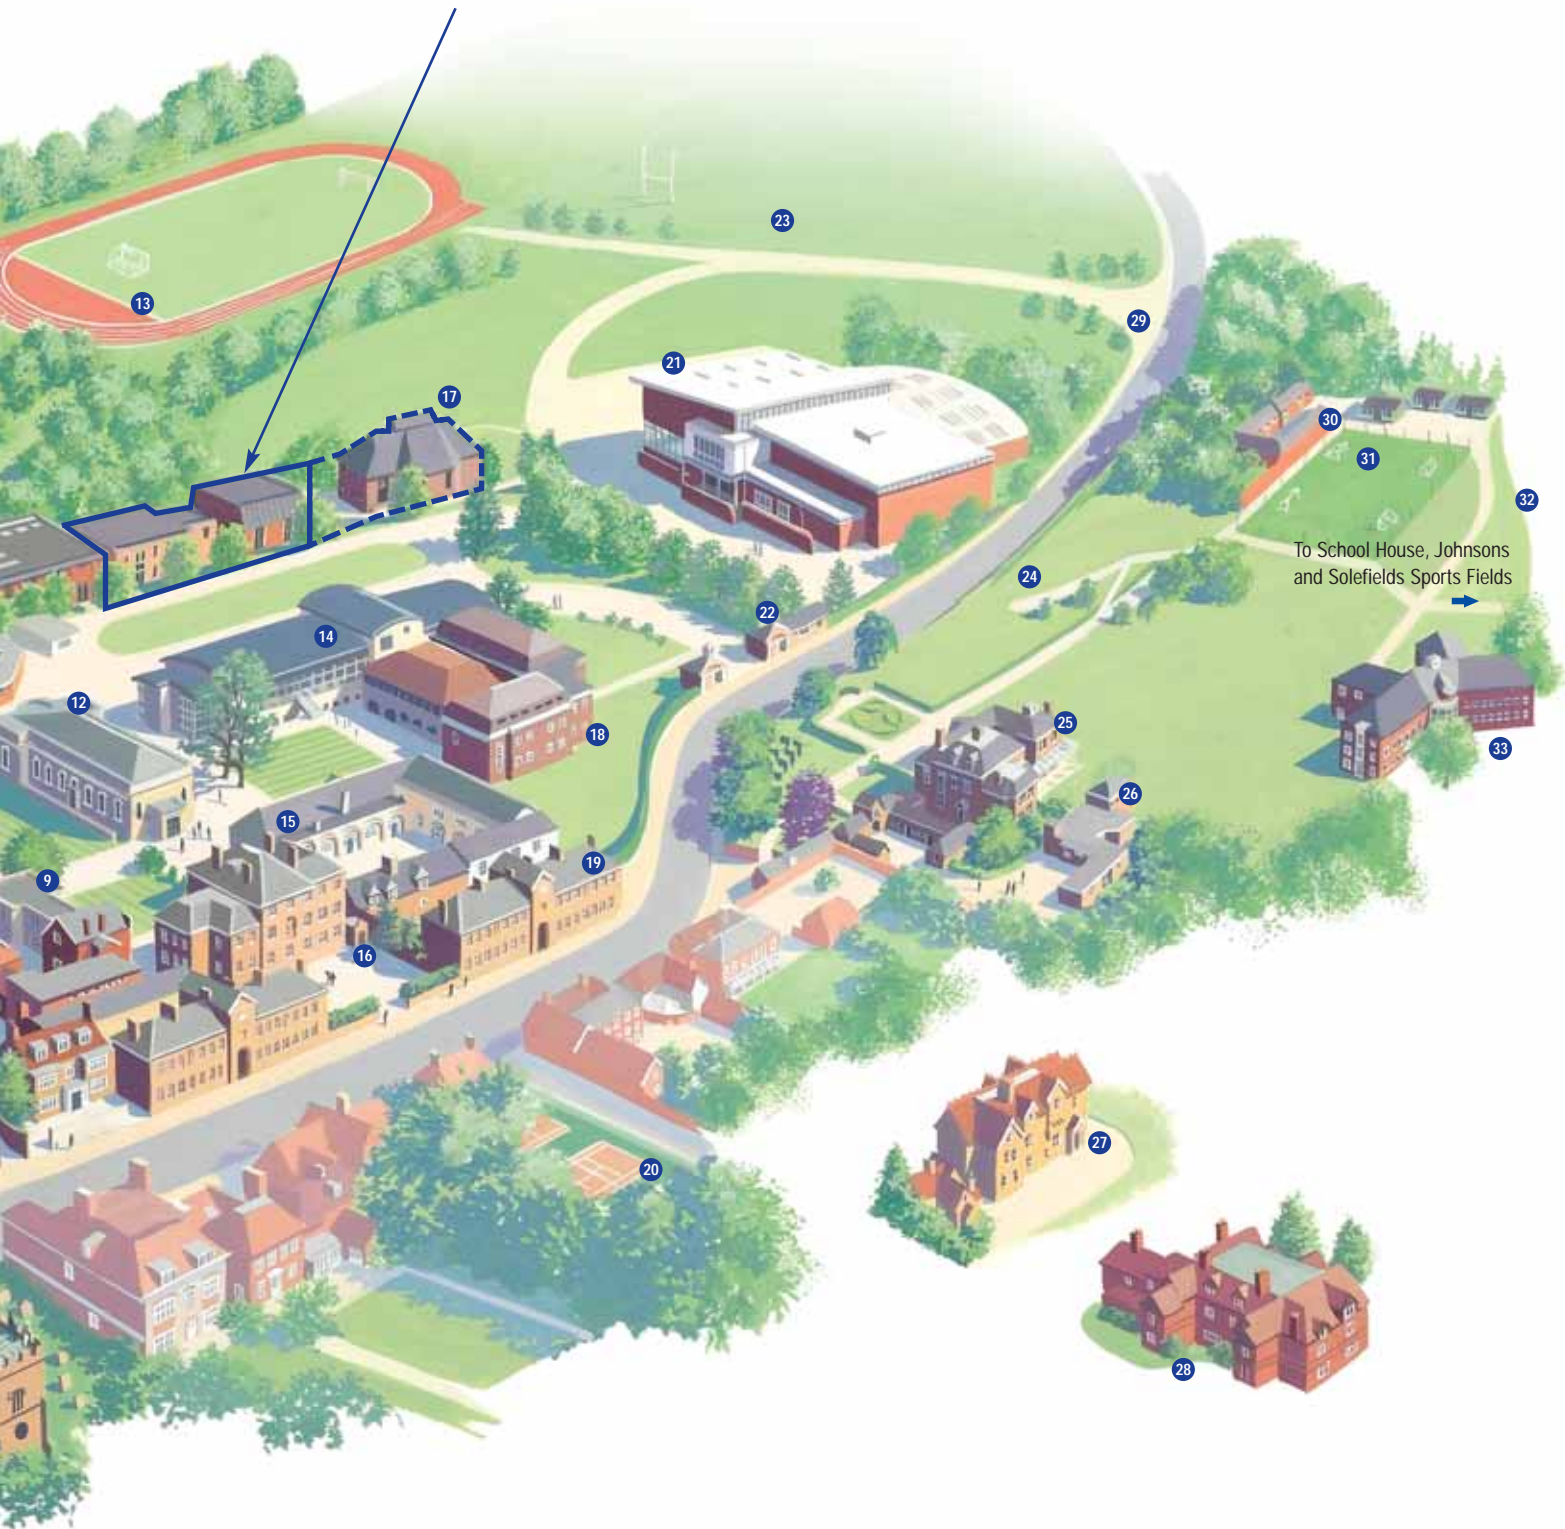

Vision for the Flat
