

WELCOME

TO CLUBS AND SOCIETIES

2026-2027

SEVENOAKS SCHOOL

Welcome to Clubs and Societies at Sevenoaks School.

each week is generally recommended, depending on individual timetables. Sixth Form students are encouraged to remain involved and often take on leadership roles, although participation is not compulsory.

Above all, we hope you will use the co-curricular programme to discover new interests, develop existing talents and challenge yourself beyond the classroom. Clubs and societies are designed to be enjoyable, enriching and rewarding. They provide opportunities to learn new skills, broaden your horizons, pursue personal interests and perhaps even discover a lifelong passion. You will build friendships, gain confidence and become an even more active member of the Sevenoaks community.

This booklet introduces the wide range of clubs and societies available throughout the current academic year.

At Sevenoaks, we offer more than 100 clubs and societies, providing opportunities for every age group and interest. From Animation Club to Water Polo, these activities are a vital part of our co-curricular programme and run throughout the school year, every school day.

Whether you are keen to try something completely new or deepen an existing passion, there is something for everyone. Our clubs span a wide range of interests: practical and hands-on, creative and artistic, intellectual and academic, sporting and adventurous. Reflecting the diversity and global outlook of our school, many clubs celebrate different cultures, languages and faiths, while others focus on leadership, strategy, performance, service and academic enrichment.

Many of our clubs are established and led by Sixth Form students, giving them the opportunity to share their knowledge and enthusiasm with younger pupils while developing valuable leadership, communication and organisational skills.

We encourage every student to make the most of the opportunities available. Lower School students are expected to participate in at least three clubs each week, where other commitments allow. For Middle School students, two to three co-curricular activities

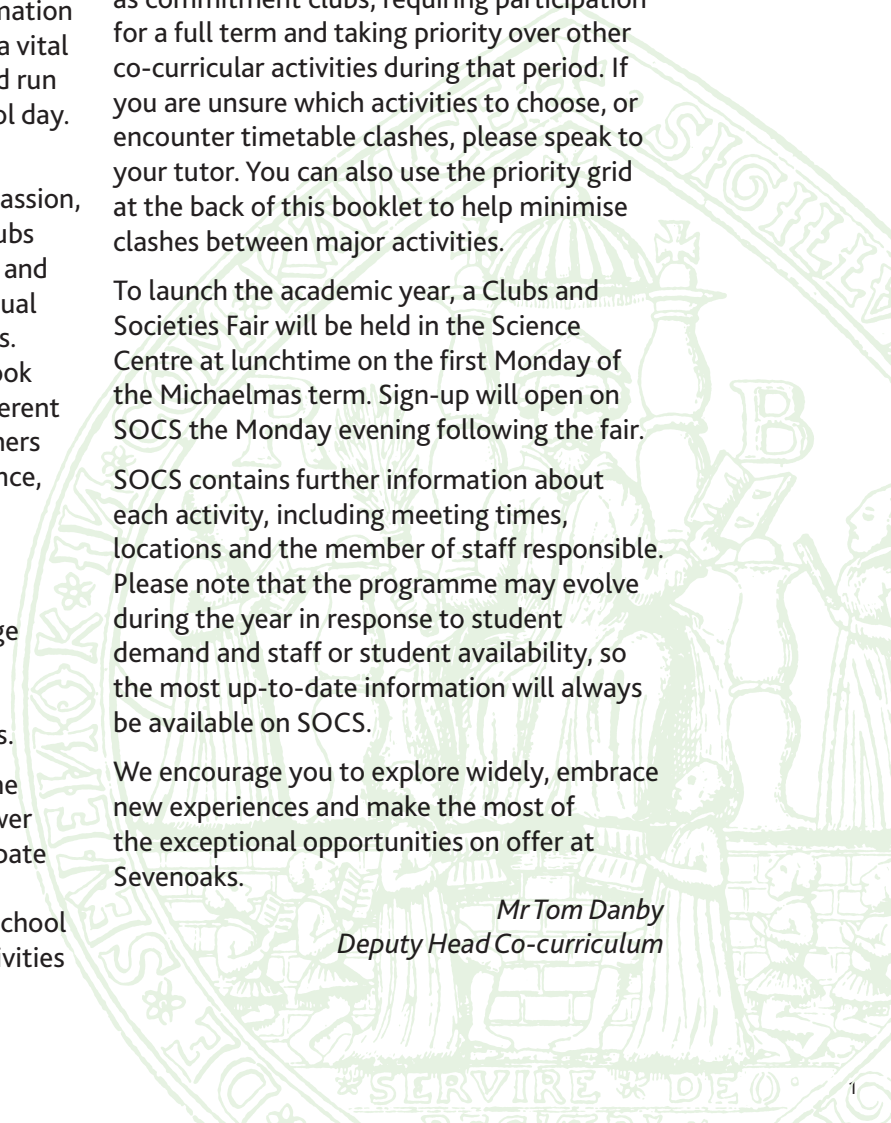

Most clubs take place at lunchtime or after school. While the majority are open to all students, some are by invitation only (such as certain music ensembles) or have limited places. A number of activities are designated as commitment clubs, requiring participation for a full term and taking priority over other co-curricular activities during that period. If you are unsure which activities to choose, or encounter timetable clashes, please speak to your tutor. You can also use the priority grid at the back of this booklet to help minimise clashes between major activities.

To launch the academic year, a Clubs and Societies Fair will be held in the Science Centre at lunchtime on the first Monday of the Michaelmas term. Sign-up will open on SOCS the Monday evening following the fair.

SOCS contains further information about each activity, including meeting times, locations and the member of staff responsible. Please note that the programme may evolve during the year in response to student demand and staff or student availability, so the most up-to-date information will always be available on SOCS.

We encourage you to explore widely, embrace new experiences and make the most of the exceptional opportunities on offer at Sevenoaks.

*Mr Tom Danby
Deputy Head Co-curriculum*

LOWER SCHOOL

Clubs and Societies	Year Group	Day	Time	Details
Animation Club	Y7-9	Thurs	16:20-17:45

The Priority Grid shows those activities which take priority over other activities taking place at the same time. If a student is arranging another activity at the same time, such as a club, meeting or practice, any activity in the priority grid takes precedence.

Some of these activities are known as 'commitment clubs'. A commitment club is one to which a student must make a commitment of at least a term, sometimes more. Examples are plays (which rehearse over two terms), music ensembles (which work towards a termly performance), sports practices (for a team). There are also Sixth Form HE talks held from time to time: while these don't require a commitment, they are shown in the Priority Grid to stop other Sixth Form compulsory activities being scheduled at the same time.

Should there ever be a dispute between which activity a student should go to (for example, a Symphony Orchestra rehearsal at the same time as a dance practice), the student would generally be expected to be at the commitment club. If there is a particular exceptional reason why the student might be allowed to miss the commitment club, they should discuss this with their tutor, and also approach the teacher in charge of the commitment club to discuss the situation with them, to see whether a compromise or exception might be made.

The above grid is for the Michaelmas term. There are slight changes to the grid every term but it remains broadly the same.
